

International Faculty

Prof Michel Gagner—Montreal, President IFSO

Prof Carel Le Roux—Dublin

Prof Bruno Dillemans—Belgium

Dr Aureo De Paula—Brazil

Dr Luc Lemmens—Belgium

Dr Martin Fried—Prague

Prof Shashank Shah—Pune, India

Dr Surendra Ugale—India

National Faculty

Prof Jonathan Valabhji—National Lead for Obesity and Diabetes UK, Imperial College London

Prof John Wass—Oxford, Vice President Royal college of physicians

Prof Francesco Rubino—London

Mr Richard Welbourn—President BOMSS

Mr Roger Ackroyd—Sheffield, President elect BOMSS

Mr Alberic Fiennes—London

Prof Mike McMahon—Leeds

Mr Peter Sedman—Hull

Mr Simon Dexter—Leeds

Mr Vigyan Jain—Luton

Mr Kesava Mannur—London

Mr Peter Small—Sunderland

Prof Duff Bruce—Aberdeen

Mr Sean Woodcock—North East

Dr Alex Miras—Imperial College London

Mr Chandra Cheruvu—Stoke-on-Trent

Overview

The aim is to discuss and review up-to-date status on Metabolic and Bariatric Surgery for diabetes. The symposium is for bariatric surgeons, endocrinologists and diabetologists.

Diabetes is a major health problem in UK and costs NHS £14 billion annually. There is a potential for an extra 850,000 to 900,000 patients who could qualify for surgery

Course convenor :

**Mr Chandra Cheruvu,
Consultant Bariatric Surgeon**

Applied for CME accreditation: 6 points

Registration is free, please contact by Mail or

Keele Symposium On Bariatric and Metabolic Surgery for Diabetes

Friday 12 December 2014

8.00am until 4.30pm

Keele Hall, Keele University,
Keele, Staffordshire, ST5 5BG

Aim of Event

Currently Metabolic surgery is performed in the UK for Diabetes in patients with BMI over 35. It is now evident and widely accepted that operating on diabetic patients earlier secures better long term outcomes.

This meeting will help wider understanding of the global experience of Surgery for Diabetes. We have the world leaders presenting their 5-10 year experience in BMI over 35 and the newer metabolic operations for lower BMI groups (30-35) for the treatment of Diabetes.

The Endocrinologists and Diabetologists are invited for this meeting as they have a major role in 'TIER 3 and Diabetes management' in UK.

Programme

Registration 8.00am - 8.30am

8.30am - 8.35am Introductions: Mr Chandra Cheruvu

8.35am - 8.40am Welcome: Mr Mark Hackett

Session 1 Medical aspects of obesity and diabetes

8.45am - 10.00am / *Chairman: Prof Vallabhji*

Moderators: Prof Rubino, Mr Sedman Dr Shah, Mr Woodcock

8.45am - 9.00am The Tsunami of Diabetes (Prof J. Wass)

9.00am - 9.15am Gut hormonal mechanisms in pathophysiology of T2DM (Prof Le Roux)

9.15am - 9.30am Insulin resistance pre & post bariatric Surgery – What happens and how? (Dr Miras)

9.30am - 9.45am Is sugar the new fat ? (Mr Cheruvu)

9.45am - 10.00am Discussion

10.00am - 10.15am Coffee

Session 2 Metabolic Surgery for diabetes BMI >35

10.15am - 12.15pm / *Chairmen – Mr Welbourn, Prof M Gagner, Prof McMahon, Dr De Paula, Mr Mannur, Mr Small*

10.15am - 10.30am The Gastric Band for Metabolic Surgery – BMI >35 (Prof Fried)

10.30am - 10.45am - Sleeve Gastrectomy as a Metabolic Surgical Procedure – BMI>35 (Mr Ackroyd)

10.45am - 11.00am - LRYGB – Is it still the Gold standard? – BMI > 35 (Prof Rubino)

11.45am - 12.00pm - The Changes in Cholesterol metabolism after gastric Bypass (Dr Lemmens)

12.00pm - 12.15pm - Discussion

Programme (cont)

Keynote Lecture

12.15pm - 12.45pm / *Chairmen – Prof Wass, Mr Fiennes, Mr Dexter, Mr Jain*

Future Commissioning and Guidelines for Metabolic Surgery in UK (Prof Valabhji)

LUNCH – 12.45pm - 1.45pm

Keynote Lecture

1.45pm - 2.15pm / *Chairmen – Mr Ackroyd, Prof Fried, Dr Ugale*
What is the evidence from the NBSR Data? (Mr Welbourn)

Session 3 Metabolic Surgery for diabetes BMI <35

2.15pm - 4.00pm / *Chairmen – Prof Gagner, Prof Leroux, Dr Lemmens, Prof Vallabhji, Prof Bruce,*

2.15pm - 2.30pm - Current evidence for the surgical effectiveness in BMI <35 (Prof Le Roux)

Which is the likely best procedure?

2.30pm - 2.45pm - Laparoscopic Gastric Banding (Mr Sedman)

2.45pm - 3.00pm - Laparoscopic Sleeve Gastrectomy (Dr Shah)

3.00pm - 3.15pm - Laparoscopic Roux-Y Gastric bypass (Mr Dexter)

3.15pm - 3.30pm - Laparoscopic Ileal Transposition results (Dr De Paula)

3.30pm - 3.45pm - Potential other procedures – Endobarrier, SADIS etc (Prof Rubino)

3.45pm - 4.00pm - Discussion

Keynote Lecture

4.00pm - 4.20 pm / *Chairmen – Prof Vallabhji, Prof Shah, Prof Fried, Mr Sedman*

New Frontiers in Metabolic & Bariatric Surgery (Prof Gagner)

4.20pm - 4.30pm - Close of the meeting (Mr Robert Courtney-Harris, UHNS Medical Director and Mr Cheruvu)
